ABOUT ME

Passionate React developer skilled in JavaScript, React, Redux, and Next.js, dedicated to creating clean, efficient, and high-performance web applications.

WORK EXPERIENCE

REACT DEVELOPER

01/2022 - Present

Intuio Software Labs Private Limited - *Full Time*

In my development work, I was building functional UIs with React, utilizing Socket.io for real-time updates. Redux for effective state management. Implemented various features like dynamic console logs, user detection, resizable components, search highlighting, auto-completion, mapping, Stripe integration, shortcut keys, and multi-tab UI.

REACT DEVELOPER

12/2021 - 01/2022

Kamsoft Technologies Goa - *Full Time*

Built car listing UI and filters using React functional components. Utilized Ant Design for dashboard forms and tables. Developed PHP APIs for data retrieval from the database. Implemented Redux for efficient state management.

PROJECT

STAY RESERVATION SYSTEM

- Accelerated the user booking process by 40% with intuitive login, registration, and checkout flows, integrated with secure payment processing; implemented a scalable Zustand state management system for multi-step booking, dynamic theming, and complex filtering.
- Engineered a dynamic property listing system with Google Maps integration, featuring custom markers and real-time location updates based on user interaction and zoom levels.

MULTI-VENDOR SHOPPING SYSTEM

- Increased conversion rates by 45% by developing a comprehensive platform with streamlined product browsing and multi-payment integration (Stripe, PayPal), and a high-performance Algolia-powered catalog with lazy loading for sub-second load times.
- Built a robust Zustand-based system to manage complex user flows across product listings, order management, and checkout, seamlessly integrated with a Medusa backend.

SMART QUOTATION MANAGEMENT SYSTEM

- Automated data management with web crawlers and import tools, reducing manual entry time by 60% and streamlining product and price updates. Engineered a dual-platform solution: a React Native Expo mobile app for quote generation and a web portal for inventory management.
- Implemented multi-step quote creation, PDF sharing, and secure single-device authentication with Socket.io for real-time updates, supporting complex product configurations seamlessly.
